I am an Information Technology student who loves working with AI and automation tools. I am looking for a role where I can use my testing, research, and technical skills to check AI responses and help train AI models. I know how to spot errors, follow instructions carefully, and find facts online.

Education

Somaiya Vidyavihar University
Bachelor of Science in Information Technology (BSc IT)
Current Student

Certifications

- AI Fundamentals – Oracle
- Prompt Engineering – CodeSignal

Skills

- Writing clear prompts for AI tools
- Building and fixing n8n automations
- Manual software testing and finding bugs
- Online research and fact-checking using Google
- Basic understanding of IT and programming systems
- Clear communication and reading skills

Experience

AI Automation and Testing (Projects)
Duration: 6 Months

- Used different AI models to create and build automated workflows inside the n8n platform.
- Tested the workflows many times to find errors, broken links, or wrong logic before they were used.
- Checked AI-generated content manually to make sure it followed the prompt instructions exactly.
- Rewrote and fixed automated steps until the final output was completely ready for production.
